My other items are a site visit in September and the Sharepoint folder for data transfer. Would September 20 work for you and others for an EPA site visit? Eugenia and I, along with our HQ listing folks and contractor, would like to see Exide. We're thinking a similar format as Mike's visit, starting in the morning with a presentation by DTSC, then a facility tour and tour of the residential area, so half day. Please let me know if 9/20 works and if not, perhaps another date that week may work for you? I targeted the beginning of the week since it's easier for travel from the east coast for our HQ staff.

Lastly, I'll send the link for the EPA Sharepoint folder in a separate email. This would be for Brian to upload the facility data. Sharepoint is somewhat particular about who can open/access links, and it's easier to email the link directly to you, Poonam, and Brian, instead of trying to embed it here. If there's other DTSC staff I should include, please send me their email addresses.

Thank you! If you have any questions about the items in this email, feel free to reach out.
